

Field Service Management (FSM) Module

Overview

The Field Service Management (FSM) Module in NexWaveERP is designed to transform how your organisation manages field service operations. Fully integrated into the NexWaveERP ecosystem, this module streamlines scheduling, dispatch, inventory, and customer engagement—empowering your teams to deliver faster, smarter, and more efficient service.

Key Features:

Service Dashboard

Allow your team to have full visibility of all Service related activities within one Dashboard.

Ideal For

- Equipment Servicing
- Utilities & Infrastructure Maintenance
- Facility Management
- HVAC, Plumbing & Electrical Services
- Medical Equipment Maintenance

Benefits

 Seamless ERP Integration: Unified data flow between FSM, CRM, inventory, and finance modules.

 Increased First-Time Fix Rates: Equip technicians with the right tools, parts, and information.

 Reduced Operational Costs: Optimize routes, reduce idle time, and automate administrative tasks.

• Enhanced Customer Experience: Provide accurate ETAs, faster service, and better communication.

 Real-Time Visibility & Control: Gain actionable insights with dashboards and analytics.

Get Started with NexWaveERP Field Service Management (FSM) Module

Empower your field teams and delight your customers with a field service module that works in perfect sync with your ERP. Visit <u>www.nexwaveapp.com</u> or contact us to learn more and schedule a demo!
