

Hire Module

Overview

The Hire Module in NexWaveERP streamlines your equipment and asset rental processes with full ERP integration. Designed to manage the complete hire lifecycle — from booking and dispatch to billing and returns — this module helps you maximise asset utilisation, reduce downtime, and improve customer satisfaction.

Key Features:

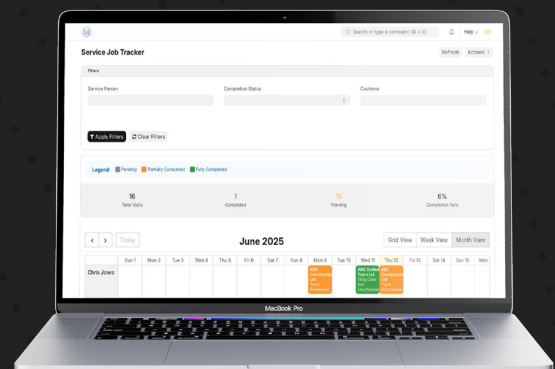

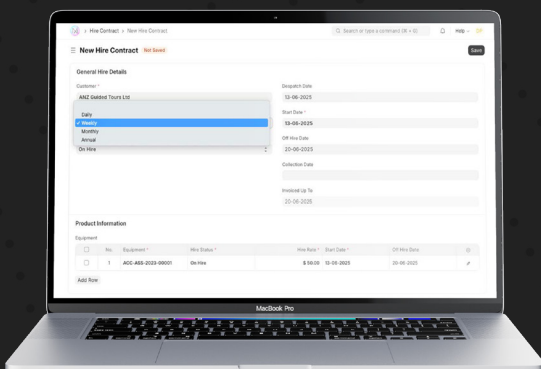

Booking & Reservation Management

Easily create and manage hire bookings with availability checks, multi-location support, and flexible rental periods.

Asset Tracking & Utilisation

Monitor the status and location of all hire assets in real-time to optimise utilisation and reduce idle time.

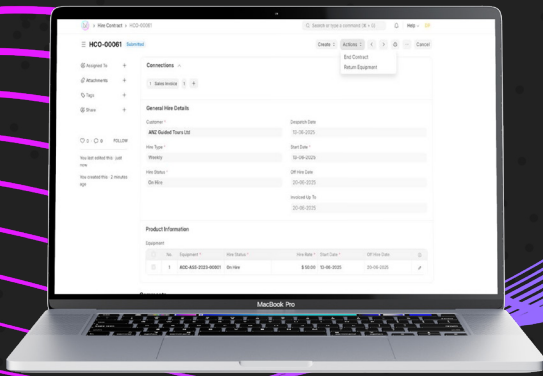

Contract & Pricing Management

Handle complex pricing models, discounts, and contract terms with automated billing rules tailored for hire agreements.

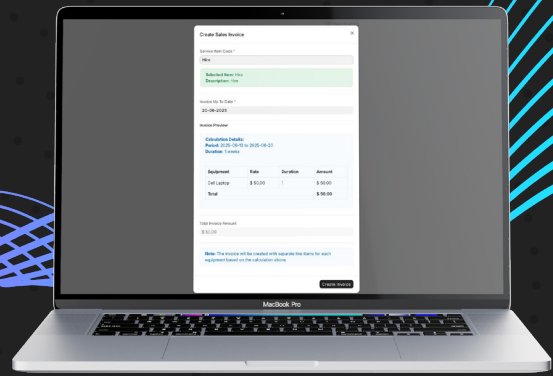

Maintenance & Service Scheduling

Schedule asset maintenance during hire and non-hire periods to ensure equipment reliability and compliance.

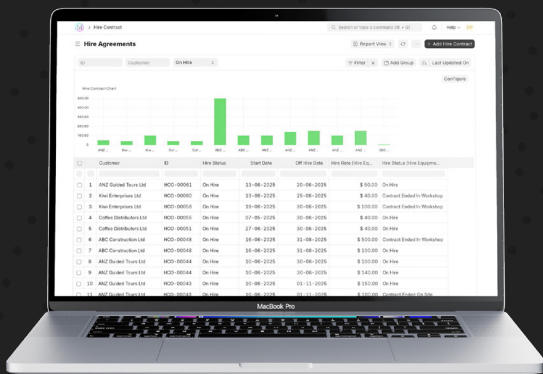

Integrated Dispatch & Delivery

Coordinate dispatch and delivery and return logistics seamlessly, with real-time updates available for customers and field teams.

Automated Billing & Invoicing

Generate accurate invoices based on usage, duration, and contractual terms, fully synced with NexWaveERP's financial system.

Customer Agreement Analysis

Handle complex pricing models, discounts, and contract terms with automated billing rules tailored for hire agreements.

Ideal For

- Equipment Rental Companies
- Construction & Heavy Machinery Hire
- Event & Party Equipment Rental
- Vehicle & Fleet Leasing
- Medical & Technical Equipment Hire

Benefits

- Fully Integrated with NexWaveERP: Share data effortlessly across inventory, finance, CRM, and service modules.
- Maximize Asset Utilisation: Improve rental turnaround times and reduce equipment downtime.
- Reduce Administrative Overhead: Automate billing, contract management, and reporting.
- Increase Revenue & Customer Satisfaction: Flexible pricing and transparent contracts build trust and loyalty.
- Robust Security & Compliance: Track asset conditions, certifications, and regulatory compliance within the ERP.

Get Started with NexWaveERP Hire Module

Manage your hire operations efficiently with NexWaveERP's fully integrated Hire Module — tailored for accuracy, speed, and scalability.
